

Appendix D –Suggested Web Site Vendors

The suggested Web site vendors listed in this appendix have expressed a desire to work with our members to provide affordable Internet Data Exchange Web site solutions. CMLS supplied each vendor with technical information regarding the Internet Data Exchange Data Feed so that they could make accurate claims in their advertising. The advertisements in Appendix D were submitted by each vendor on the basis of the information supplied. CMLS has not verified the information provided and disclaims any responsibility for its accuracy. This list is provided as a convenience for CMLS members and is not an endorsement of any of these Web site vendors. CMLS is not responsible for the services rendered by any Web site vendor, listed or otherwise.

your
website
the
hits
it deserves!

If you're going to add a property search solution to your Web site...

Why not add the best?

Introducing **IDX Tracker**, a highly advanced property search solution, designed to help you market IDX listings through your Web site.

IDX Tracker was created by REALTORS®, like you. We specialize in the needs of buyer-clients and have incorporated those needs into one comprehensive solution – **IDX Tracker**.

IDX Tracker comes *standard* with the following features and benefits:

- Three *different* ways for your clients to search: by map using CMLS area and subareas, by proximity to a particular address and by MLS number.
- Advanced mapping (by Google™) showing flagged properties within the search area.
- Interactive tools: Email to Friend, Mortgage Calculator, Schedule Showing and Save Search.
- Price-per-square-foot calculated on all property quick-views and detail-views.
- Customized pages with your firm's name, logo and Email address.
- And much, much more!

**All for \$200 setup
and \$40 per month.**

No add-ons, enhancements or upgrades to worry about – **IDX Tracker** is an all-inclusive IDX solution, serving local firms in, and around Charlotte.

(custom site design also available)

The screenshot shows the Davis Farrell IDX Tracker interface. On the left, a 'Results' section displays a list of properties for sale, each with a photo, status (e.g., 'SALE PENDING'), address, and price. On the right, a 'Map' section shows a Google Map with several red location pins indicating the search area. Below the map is a 'Contact an agent' form with an email input field and a 'Send' button. The Davis Farrell logo is visible in the top left corner of the interface.

Call us today to get started: 704-290-2358

Or visit: www.davisfarrell.com/tech

for a full IDX Tracker demo.

CMLS Special: \$29.95 /month

- No Setup Fees
- No Annual Contract
- Easily Added to your existing website
- Based in the Charlotte Area

Adding a full featured home search to your website has never been easier. We offer an IDX solution for your existing website that will instantly make your site both a lead generation tool and a client resource.

Key Features

- Save and view favorite properties
- Add additional information and photos to your listings
- Your listings can be displayed first in all result lists
- Maintain up to 5 "Featured Listings" lists
- Unlimited pre-defined searches for quick access from your web site. Create one-click searches such as "show all 3 bedroom properties between 250,000 and 275,000 with a pool"
- Daily Email Updates - users can save their search parameters and receive daily email updates when new properties match their search. Agents receive a daily summary of these emails and can view the properties that their prospects receive
- "My Listings" page automatically updated every day. No need to enter listings anywhere else but the MLS
- Property Detail map with satellite imaging
- Full Featured Administrator Control Panel
- IDX can be framed or independent. Choose the method that works best for your site and SEO plan
- Agent configurable registration requirements. Set your site to require registration before searching, before viewing property details, or only when saving favorites
- "Office/Agent Profile" pages
- "Office Roster" pages
- High Performance Redundant servers virtually eliminate any downtime of your site
