

Supra DisplayKEYS and eKEYs

Training and support

- Located on Supra's website at www.supraekey.com → **Products**

The screenshot shows the Supra website homepage. At the top left is the Supra logo with 'United Technologies' underneath. To the right are links for 'SupraWEB - Agent Login' and 'Contact Us', and a search bar with the text 'Search this site...'. Below this is a blue navigation bar with the following items: 'Products' (circled in red), 'News & Events', 'Downloads', 'Customer Support', 'Login', and 'About Us'. The main content area features a large banner for 'Supra Systems' with an image of a house, a smartphone displaying the 'eKEY Professional' app, and a blue electronic lockbox. Below the banner, it says 'Supra provides a cutting edge electronic lockbox system to the real estate industry.' and includes a 'Learn more >' link. To the right of the banner are two smaller promotional boxes: 'SupraWEB Login for Real Estate Agents' with a laptop image, and 'SupraNET Login for Association and MLS Staff' with a mouse image. At the bottom of the page, there is a green bar and a navigation bar with arrows and numbers 1, 2, 3, 4.

The Supra System — opening doors for real estate agents since 1955

Products

Supra has provided keyboxes to the real estate industry since 1955, bringing efficiency to real estate professionals and peace of mind to home sellers. The Supra System makes it easy for showing agents to access properties and for listing agents to track activity at client properties.

The latest Supra keybox, iBox™ BT LE, adds Bluetooth® Low Energy technology, and communicates with newer smartphones without any additional hardware. A data record is created when a lockbox is opened, and the eKEY™ application on the smartphone immediately transmits that information to the Supra database so real estate agents can obtain real-time information about showings. Client questions can be answered quickly, and feedback from showing agents can be gathered while information is fresh in the showing agent's and client's minds.

Keys

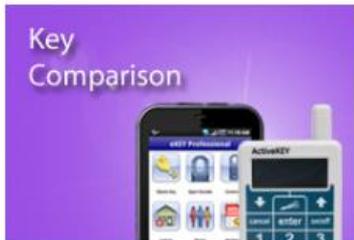

Supra electronic keys can be a proprietary electronic device or an eKEY application running on popular smartphones. All the Supra keys include PIN-code security. The keys record events each time a keybox is opened.

DisplayKEY

Perform standard keybox operations and display information from your keybox on the screen of your Supra DisplayKEY.

Automatically update the information in your DisplayKEY and send data to the Supra network by daily placing it on a cradle that also serves as your battery charger. The DisplayKEY cradle connects to the Supra network through a phone line or through a USB cable connected to your computer.

eKEY

Use your smartphone or tablet as your lockbox key. The eKEY application uses your phone's wireless communications so you can do business anywhere. Choose from many different Android™, BlackBerry®, and Apple phones and tablets. For a list of devices that were thoroughly tested by Supra and provide the highest possible user experience, [click here](#). Devices not on this list may still be compatible, however, user experience may vary.

Two service levels are available: eKEY Basic for common keybox functions, and eKEY Professional which enhances basic capability with adds business tools such as MLS data stored on your phone (eliminating time consuming over-the-air searches), linking the listings to Google maps, and displaying showing details on your phone.

eKEY Basic

eKEY Basic turns your phone or tablet into a lockbox key. It also enables you to program iBoxes, change shackie codes, and more.

eKEY Professional

Like eKEY Basic, eKEY Professional turns your phone or tablet into a lockbox key. It also adds many productivity features to your phone or tablet.

- **Push up** on bottom of iBox BT LE key container to turn on the Bluetooth (**red light flashes**)
- The word **SUCCESS** will display on your phone
- **Push up** on bottom of iBox BT LE to release key container

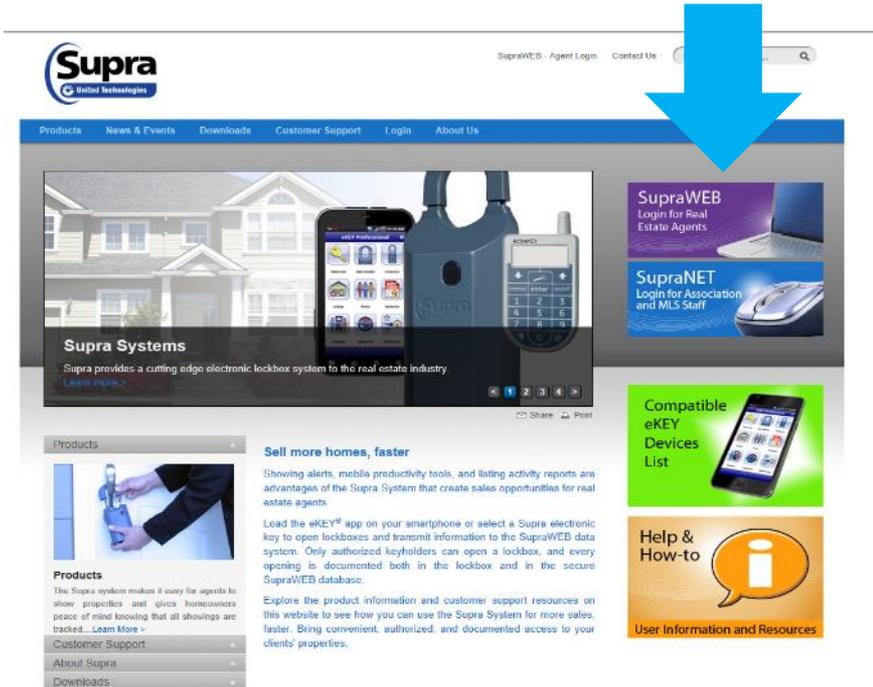

iBox BT LE

Important information

- Every Supra key expires at **midnight**
- **eKey** updates wirelessly as soon as you open the app
- **DisplayKEY** dials out through the internet to get an update sometime between midnight and 6 a.m.
- There are three ways to update your **DisplayKEY** if you fail to leave it in the cradle overnight to update automatically:
 - Manually update the key on the cradle
 - Call KIM VOICE – the phone number on the back of your key
 - Log into SupraWEB and generate an update code
- The cradle works to charge your **DisplayKEY**, so make sure to leave it on the cradle when it's not in use

SupraWEB (handout)

- Register your key at www.supraekey.com
- Obtain a courtesy update code for your key
 - MLS allows two consecutive courtesy updates before you have to update your DisplayKEY on the cradle
- Obtain an authorization number for your eKEY

The screenshot shows the Supra website homepage. At the top left is the Supra logo with 'United Technologies' underneath. To the right are links for 'SupraWEB - Agent Login' and 'Contact Us'. Below the logo is a navigation bar with links for 'Products', 'News & Events', 'Downloads', 'Customer Support', 'Login', and 'About Us'. The main content area features a large banner for 'Supra Systems' with an image of a house and a mobile device. To the right of the banner are two login boxes: 'SupraWEB Login for Real Estate Agents' and 'SupraNET Login for Association and MLS Staff'. Below the banner is a 'Products' section with a sub-section 'Sell more homes, faster' and a 'Help & How-to' section. A large blue arrow points from the top right towards the SupraWEB login box.

Lost-Stolen-Defective

- If you lose your DisplayKEY, you can lease another key from Canopy MLS.

Lost-**Stolen**-Defective

- If your DisplayKEY or lockbox is stolen and you have a police report that lists the product as stolen, we will replace the product for free.

Lost-Stolen-Defective

- If your DisplayKEY or lockbox is not working properly, you must obtain a reference number from Supra Technical Support (877-699-6787) so we can replace the product for free.

Lockbox hours

- March through November: **8 a.m.-10 p.m.** (Spring forward)
- November through March: **7 a.m.-9 p.m.** (Fall back)

TECHNICAL
SUPPORT

DisplayKEY tips

- To reset your key, press **Enter** and **1** at the same time
- After pressing the **Enter** button to turn your key on, press **Enter** a second time and hold for two seconds to turn on the backlight

eKEY help

eKEY tips

- If you change to another compatible smartphone you **MUST** remember to get an authorization number from SupraWEB
- Make sure you open the eKEY app when you're connected to Wi-Fi to ensure the key is updated
- Your device's Bluetooth must be turned on to communicate with the iBox
- Activate the iBox by **pushing up** on the bottom of the iBox key container to turn on the Bluetooth

Supra iBoxes

New iBox BT LE

- Every iBox has its own four-digit shackle code
- If you borrow boxes from your firm, they will provide that code to you
- If you buy boxes from The Realtor® Store, they will give you that number with the box
- Old Supra iBoxes are no longer approved

Old iBox
